HARRY BERNARD, JIM HOWE AND THE MERRY MAKERS.

Harry Bernard Coming to Nevada Theatre Sunday

A special train is not necessary to
transport the accumulation of sor-
rows and tears, but Manager Smith
advised the playgoers of Tonopah and
vicinity to bring with them to the
Nevada theater all the available ve-
hicles to cart away the laughs that
will be deluged when Harry Bernard
and his big company of merry makers
open their engagement. The attrac-

THE BIG FOUR REEL CIRCUS PIC-
TURE AT THE BUTLER
SATURDAY

At the Butler theater Saturday af-
ternoon and evening will be seen one
of the best circus pictures ever
shown in this popular place of amuse-
ment, being a four-reel drama entitled
"A Leap of Despair," presented by
the Haha Feature Players. It is a
story of unusual happenings, a vividly
told tale intense in interest, showing
the riding of a wild steed along a
high bridge parapet; climbing the
steep spiral staircase on horseback;
a stirring fireworks exhibition, amu-
sing antics of circus clowns and the
fall of the horse and rider to the
floor far beneath. Amid thrilling sus-
pense the horse traverses the narrow
plank, and after the heavy spiral
climb reaches the bridge. Then fol-
lows the flare and flash of the fire-
works, the horse unmoved in their
midst. The daring rider is about to
end the act when she sees her hus-
band and her rival in a stage box.
Unnerved, despairing, she and the
horse, with a sickening crash, fall to
the tankard floor. The final price of
admission will be charged.

FOR SALE

ern, completely furnished dwelling in

sired. Southern Nevada Abstract

CHILEAN MILL PUT INTO COMMISSION

MAY INCREASE THE CAPACITY
OF PLANT TO FIFTY
TONS DAILY

The six roll Chilean mill which the
Carrara Mining and Milling Leasing
Syndicate have been erecting for the
past seven weeks was placed in op-
eration Thursday of this week.
It is too early as yet to state just
what the percentage of extraction
will be from the mill, but from pre-
sent indications it looks like it will
save around 55 to 90 per cent of the
gold values on the plates and con-
centrating tables. The tailings are
being saved and will be cyanidated at
a later date.

Work of erecting the mill was
started about the middle of January
and has been progressing steadily
under the directions of Joe Murphy
and John Sutton. The equipment
consists of the 7x9 Dodge rock crush-
er, a six-foot Wallace mill of the
Chilean type, with a 30 horse power
Commercial gas engine for motive
power. The ore passes from the
rock crusher to the mill, where it is
ground to a very fine mesh and then
passes out over the silver plated
copper plates and thence through the
amalgam traps and onto the concen-
trating tables.
A. J. McPherson of Rhyolite has
the contract to haul the ore from the
leases on the Bull Moose Mining
Company's ground on Bare mountain
to the mill and he will keep a four-
horse team busy hauling from 10 to
15 tons of ore daily.

The ore that is now going through
the mill will average around \$20 to
the ton in gold and it is an ideal
free-milling ore.

If the present plant proves satis-
factory the Carrara syndicate will

AN IMPORTANT QUESTION.
Your health depends upon the right
answer. This matter of food should
be given more attention by each in-
dividual. It is true the government has
passed

THE PURE FOOD LAW
but there is no law against dirty,
ignorant cooks. "What do you eat?"
and "How is it prepared?" are just
as important. We answer these ques-
